SUMMARY

To excel as an IT professional by leveraging modern technologies to develop innovative and efficient solutions. I seek a dynamic role that promotes continuous learning, professional growth, and meaningful contributions to technology-driven projects.

WORK EXPERIENCE

App Developer | Ligth Inc. Sep 2024 - Apr 2025

- Built cross-platform **mobile app (Expense Tracker & FIRE Calculator)** using **React Native**.
- Hands-on experience in API integration, UI/UX design, and deployment via Render.com.
- Worked in an agile team, gaining fintech exposure and collaborating with global stakeholders.

Software Developer | Ceiyone Technologies Jun 2024 - Sep 2024

- Worked on live **WordPress** projects involving theme customization, plugin integration, and real-time updates.
- Managed hosting services via **Hostinger**, including domain setup, cPanel, and deployment.
- Cloned an e-commerce portfolio site with a focus on responsive design and clean UI/UX.

Author of Everyday Echoes | <https://sanmathisedhupathi06.blogspot.com>
